

# eMploY-ABILITY

We are making great progress with our Building Better Opportunities

‘eMploY-ABILITY’ programme – we have over 140 participants on their journey with us to work, active job search or education and training - this is just one example of the activity taking place and how our team and the participants are working together to achieve some great outcomes .....

Our participant heard about the Building Better Opportunities through The Ferry Project Job Café where she attended with the aim of finding support to find employment and find out about updating her skills. After discussing the project with The Ferry Project Key Worker, our participant thought it was a positive idea as she had to start again and didn’t know where to begin.

“The help and support received with my CV was a massive help. Being able to discuss ‘work’ issues on a one to one basis in a calm and non-judgemental environment was invaluable.

Being made aware of course to improve my CV and being encouraged by my Key Worker to attend, together with morale boosting was exception.

The project has definitely put me on the right path to what I need to do and how to go about doing it.

Also by taking part in courses, has highlighted a very real need for me to finally address my learning difficulties, but has also given me the confidence to pursue the necessary actions needed to do this”

We are very pleased with the progress our participant has made in accessing a business course to further her career.

Get involved - 3 ways to join the eMploY-ABILITY journey...
